Dear users,

Hello! Newdex has officially set up the EOS ecological DeFi special development fund. The fund is named "Newdex Seed", which is used for the incubation of EOS ecological DeFi projects and the developer support to promote the prosperity of EOS ecology.

The specific operating rules of Newdex Seed are as follows:

1. Any team that is interested in the development of the EOS chain DeFi project and has certain development experience can submit an application, and after passing the application, the team can obtain certain financial support. The project submission method is to send an email to: seed@newdex.io. When submitting the application, please indicate following information in the email: team information, contact ways, project name, project roadmap, development plan, current progress and other relevant information. We will complete the review within 10 working days after

Newdex Seed funded DeFis Network

On July 16, Newdex officially announced that DeFis Network became the first project to receive investment from the “Newdex Seed” fund. DeFis Network is a decentralized financial network that integrates a series of DeFi protocols. It is currently named “one of the four EOS dragons” by the community.

Newdex Seed funded Organix

On August 11, Organix became the second project funded by the Newdex Seed. Organix is the first decentralized synthetic asset issuance and transaction protocol in the EOS DeFi ecosystem.

Newdex Seed funded Defibox Foundation

On July 20, Newdex officially funded the Defibox Foundation. Defibox was launched on July 21, 2020, with the highest locked volume exceeding 33 million EOS. Currently, the locked volume ranks first among EOS DeFi.

In addition, as of December 31, 10% of the Defibox protocol revenue was involved in the hourly buy-back and burning of 17,281,537.3945 NDX.

Риски централизованных бирж

Весь криптовалютный мир гудит от новостей о больших трудностях и реальной угрозе закрытия очередной **централизованной биржи (ЦБ)**. Это худший кошмар трейдеров, поскольку они **не смогут вывести деньги с биржи**. Интересно то, что главными причинами возможного закрытия являются **неудовлетворительная практика бухгалтерского учета и неточные бизнес-решения**. В отличие от других ЦБ, которых данная участь постигла ранее, **смертельный удар был нанесен не внешними факторами, а внутренними неточностями**,
